Subject: Jennifer Lynch- notes of remarks and upcoming Councilpresentation

Dear John,

Thank you for your letter of June 16. I am glad that there are positive echos coming from your Board after I met with them ...

As for the remarks that I made at the CBA conference- let's work out how best to get that information to your Board and to their Executives. I have wanted to follow up with you in any event about my remarks to be made to the Council in mid-August. My plan was to update the presentation I made to the board and to expand on our Special Report to Parliament now that it is out. As for updates, for example Mark Steyn has now posted on his blog, "Is Jennifer Lynch a drunken pedophile serial killer" ? - and more of what I call 'reverse chill' is going on daily. However it has been my plan that the presentation would stick to the key messages I gave to the Board.

So here are my questions to you:

1. Is my plan for the Council - same key messages, similar but updated text - OK with you?
2. Format- how long do you want me to speak, and will there be time for questions and even a chair-led discussion on 'next steps' or action plan?
3. If answer to #1 is yes: does the audience include the executives of the prov/territories, in which case sending out a text of my remarks now would 'scoop' my presentation and I wouldn't recommend it subject to your thoughts.
4. As for the actual text to be released- I can send you the speech I gave to CASHRA (Canadian Association of Statutory Human Rights Agencies) on June 15 - it has 90 % exact same text in it and is already public. It is in translation and I will send it to you in both languages as soon as I have it.

I am certainly looking forward to meeting with your Council in mid- August and to the activities that anchor it. Thanks so much for putting me on on Saturday- that helps me out.

All the best,  
Jennifer
