

Marc Lemire's Constitutional Challenge of Internet Censorship to be heard in February, 2007 - Toronto

The culmination of three years of research will be brought down on the censors, across 20 hearing days in Toronto. Headed up by lead defence counsel and courageous civil liberties lawyer **Barbara Kulaszka**, we are going to bring down the most serious challenge the Canadian Human Rights Act has ever faced. The battling Barrister **Doug Christie** has also intervened on behalf of freedom of speech and will have a tremendous effect during the hearing! The defence team includes, three world-renowned expert witnesses, including *Dr. Michael Persinger*, who is right now on TVO being voted on as 1 of the top 10 best University Lecturers in Canada! Other experts include; the computer/internet genius *Bernard Klatt* and *Professor Donald Downs* from the *University of Wisconsin*. Fact witnesses will include, Canada's leading internet freedom fighter – **Paul Fromm**. Opposing Barbara Kulaszka and Doug Christie will be the thought-control fanatics at the Canadian Human Rights Commission, who pretend to represent the “general public” interests. Others at the hearing will be complainant Richard Warman, Federal Attorney General of Canada, Canadian Jewish Congress, Bnai Brith and the Simon Wiesenthal Centre.

Please come by the hearing and show your support. We must stand together and in a united voice denounce the “Human Rights” Commission, this horrible law and their apparatchiks’ that enforce it. Your presence in the hearing will show beyond a doubt that Canadians will defend Freedom of Speech and support the victims of state sponsored repression.

What this case is all about ... Freedom of Speech!

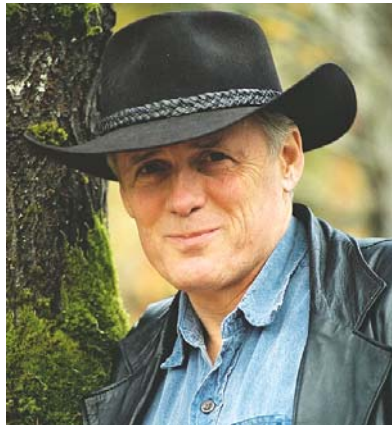

This case is about Freedom of Speech - plain and simple. The Canadian "Human Rights" Commission is seeking to hold Marc Lemire liable for material he never wrote, and they even refuse say exactly what they are actually complaining about. Their only agenda is to silence Marc Lemire and Internet freedom at all costs. They are in such a censorship rage, they have actually pulled up articles from Marc Lemire's website – the *Freedomsite*, written by mainstream media sources like the *Vancouver Sun*, *Georgia Straight* and even official *House of Commons hansard* and are accusing Marc Lemire of promoting "hate" for having those articles and transcripts online. The CHRC is so poisoned with ineptness, hatred and contempt – they have actually accused Marc Lemire of promoting "hate" for posting the contents of the *Canadian Human Rights Act* on his website!

Thanks to the immense research of our legal team, we have conclusively documented the bias and outright hatred the Canadian Human Rights Commission has for *White working-class Canadians*. Some 43 cases have been brought since the inception of Section 13 of the *Canadian Human Rights Act* (Internet censorship law), and every single one of the defendants were **White**. 98% of all cases involved **poor** defendants and only 9% could afford a lawyer to represent them. The CHRC is in a rage to silence all opinions they disagree with and will use "any means necessary" to enforce their will on Canadians. And we say **NO MORE!**
